Student Feedback Report Analysis

The feedback from students for each course is collected and analyzed at department level. The consolidated report is generated at institute level by considering department feedback. The feedback analysis of all UG program is attached below:

Department of Electrical & Electronics Engineering

- 1) Sample Course wise Report Analysis: The report gives information about the number of students who have chosen excellent, very good, good, fair and poor. Sample report is provided for reference.

3rd semester- 18EE33

Parameter	Excellent	Very good	Good	Fair	Poor
For the discipline and concurrent technologies, the course structure framed by the university is relevant. (S-1)	35	18	1	0	0
The course outcomes are relative to the objectives defined. (S-2)	41	11	1	1	0
Rate the course in terms of extra learning or self-learning considering the design of the course. (S-3)	38	14	1	1	0
The course offers ICT based learning techniques. (S-4)	40	12	2	0	0
Appropriate assessment tools are used for course outcome evaluation? (S-5)	37	17	0	0	0
Course offered in curriculum by the university supports in capstone project/seminar/internship (S-6)	39	13	2	0	0

Student Feedback Report Analysis- 2019-20

The feedback from students for each course is collected and analyzed at department level. The consolidated report is generated at institute level by considering department feedback. The feedback analysis is attached below:

Department of Civil Engineering

Semester- wise analysis – Average value of student feedback against each course.

Parameter	Code
For the discipline and concurrent technologies, the course structure framed by the university is relevant.	S-1
The course outcomes are relative to the objectives defined.	S-2
Rate the course in terms of extra learning or self-learning considering the design of the course.	S-3
The course offers ICT based learning techniques.	S-4
Appropriate assessment tools are used for course outcome evaluation?	S-5

Student Feedback Report Analysis-2018-19

The feedback from students for each course is collected and analyzed at department level. The consolidated report is generated at institute level by considering department feedback. The feedback analysis is attached below:

Department of Electronics & Communication Engineering

Semester- wise analysis – Average value of student feedback against each course.

Parameter	Code
For the discipline and concurrent technologies, the course structure framed by the university is relevant.	S-1
The course outcomes are relative to the objectives defined.	S-2
Rate the course in terms of extra learning or self-learning considering the design of the course.	S-3
The course offers ICT based learning techniques.	S-4
Appropriate assessment tools are used for course outcome evaluation?	S-5
Course offered in curriculum by the university supports in capstone project/seminar/internship	S-6
Learning & teaching methods encourage me to participate in co-curricular activities	S-7

Student Feedback Report Analysis- 2016-17

The feedback from students for each course is collected and analyzed at department level. The consolidated report is generated at institute level by considering department feedback. The feedback analysis is attached below:

Department of Civil Engineering

Semester- wise analysis – Average value of student feedback against each course.

Parameter	Code
For the discipline and concurrent technologies, the course structure framed by the university is relevant.	S-1
The course outcomes are relative to the objectives defined.	S-2
Rate the course in terms of extra learning or self-learning considering the design of the course.	S-3
The course offers ICT based learning techniques.	S-4
Appropriate assessment tools are used for course outcome evaluation?	S-5
Course offered in curriculum by the university supports in capstone project/seminar/internship	S-6
Learning & teaching methods encourage me to participate in co-curricular activities	S-7

Student Feedback Report Analysis- 2016-17

The feedback from students for each course is collected and analyzed at department level. The consolidated report is generated at institute level by considering department feedback. The feedback analysis is attached below:

Department of Mechanical Engineering

Semester- wise analysis – Average value of student feedback against each course.

Semester – 3rd

Parameter	Code
For the discipline and concurrent technologies, the course structure framed by the university is relevant.	S-1
The course outcomes are relative to the objectives defined.	S-2
Rate the course in terms of extra learning or self-learning considering the design of the course.	S-3
The course offers ICT based learning techniques.	S-4
Appropriate assessment tools are used for course outcome evaluation?	S-5
Course offered in curriculum by the university supports in capstone project/seminar/internship	S-6
Learning & teaching methods encourage me to participate in co-curricular activities	S-7
