

**Report on “Faculty Development Program for Student Induction (FDP-SI)” during 26-28 June 2019 at Visveswaraya technological University, Belagavi organized by All India Council for Technical Education (AICTE).**

**Brief History about inception of UHV**

As per the discussion held on 49th meeting of Council held on 14th March 2017, Three Weeks Induction Program is made mandatory. Accordingly, a three-week mandatory induction program for students has been designed. Induction Program is to be offered right at the commencement of the first year and classes will begin only after student Induction program is over. Main Purpose behind this initiative is to make the students feel comfortable in their new environment, set a healthy daily routine, create bonding in the batch as well as between faculty and students. The student induction program is now a part of the model curriculum of Undergraduate Studies in Engineering & Technology launched by Hon’ble Minister of HRD during a conference on ‘Quality Initiatives in Technical Education’ on 24th January 2018 at AICTE, New Delhi. It has already been requested to all universities/institutions to adopt the model curriculum from the academic session 2018-19.

**Why FDP-SI**

Education is for developing the students’ full human personality, so that they are able to participate meaningfully not only in their profession, but also in their family, society and their natural environment – ultimately leading to a society that is just and equitable. Every commission on education has articulated the need for human values in education.

In this regard AICTE is articulated to conduct three weeks of Induction Program to students who are Newley joined to the technical Education Institutes.

It is of utmost importance that the faculty members/teachers are well equipped and prepared to conduct the SIP. The core of SIP is Universal Human Values module. It must be delivered by the faculty members from the respective branch/discipline of the student group. Appropriate FDPs have been designed and are being organized for preparing faculty members.

The following Faculty development Programs (FDPs) are being conducted throughout the country for this with the support from AICTE HQ and Regional Offices:

- 3-day FDP-SI (UHV) or 5-day online UHV FDP – Orientation to UHV for SIP
- 7-day UHV FDP – Details of UHV, essential for qualifying to teach UHV-I or UHV-II

**In this regard A 3-day FDP-SI is organized at Visveswaraya Technological University, Belagavi organized by All India Council for Technical Education (AICTE) from 26-28 June 2019.**

The Program is coordinated and conducted by the resource person Sri. Sajeew Chopra. Sir is eminent scholar and engineer by profession and worked at various levels at ISRO control centre Hasan. Sir is practicing UHV by Jeevan vidya from many years and was a renowned speaker and conducted many workshops on Jeevan vidya based UHV.

The program is Inaugurated by Honourable vice chancellor Prof. Karisiddappa. In his inaugural address VC told that VTU one among the few Universities which readily agreed and following AICTE modern curriculum. Also, He insisted that all the Engineering Colleges affiliated to VTI will practice and follow the guidelines laid y AICTE in the effective implementation of UHV in their respective colleges.

In day 1, the resource person Sri Sanjeev Chopra gave the importance of the UHV and its implementation in the Engineering Colleges. The video presentation by Rajeev Sangal was displayed in the beginning of the Session.

Later, the session is continued with discussion about the problems associated in the present society and human living and the reasons behind it. Sir has described the four orders in universe and their inter relationship. How human existence is threatening and exploiting the other four levels of the universe. Sir has also described the UHV is based on co-existential philosophy.

Later in the afternoon, the discussion is moved on to the human being as co-existence of the Self and body. Also, the needs of the body and self were listed on the board. All the participants were concluded that the human bodily needs are finite and Self needs are infinite.

In Day 2, started with understanding the terminology or meaning of words and their right usage in universal Human values. Such as Price & Value, Body & Self etc., The existence of the human is to live happily. It's the need of the self and basic aspiration of the human being is to live happily. This is possible only when the human living is lives with harmony with in knowledge order and other orders of the universe.

In day 3, the session is started with Harmony in the family. The various aspects which contribute to the harmony were discussed during the session. Also, later the Discussion is moved unto the Value system. Sir Discussed few important Values out of the 28 values in the UHV. Behavioural values like Respect, Trust, Gratitude, affection and Care are discussed. Before Concluding the session, sir also, touched upon the behavioural aspects of human conduct.

The valedictory function chaired by Honourable VC Sri. Karisiddappa Sir and Registrar Prof. Annagere. Participants given their feedbacks and resource person is thanked by all the participants and felicitated by the VTU.

**One day Workshop on “New Model Curriculum for first year BE/B.Tech-  
CBCS Detailed Syllabus (2018-19) as per Outcome-Base Education  
format including CO and Bloom’s Taxonomy”**

Visvesvaraya Technological University (VTU) is organised one day workshop on NEW model Curriculum for the first Year BE-CBCS detailed syllabus (2018-19) as per outcome based Education (OBE) format including Course Outcome (COs) and Blooms Taxonomy.

The workshop is organized in three zones of VTU

- Belagavi and Kalburgi
- Bangalore
- Mysuru

The faculties of Mysuru Zonal attended workshop at Sahyadri college of Engineering and Management, Mangaluru.

The session was inaugurated by Honable Vice Chancellor Mangaluru University Prof. K Byrappa and dignitaries from VTU & Sahyadri Institutes

The workshop on ALCTE model curriculum under TEQIP1.3 was organized by VTU in Sahyadri College of Engineering & Management, Mangaluru.

The AICTE has released model curriculum for UG Degree courses in Engineering & Technology, January 2018.

AICTE has revised credit for subjects:

1 hr lecture /week	1 credit
1 hr Tutorial / week	1 credit
1 hr Practical/week	0.5 credit
2 hr Practical/week	1 credit

Modules were designed as per the discussion held by expert members and committee has brought the content of the syllabus and listed the text books and reference books for same.

Based on above revised credit for lecture hours, VTU has brought changes in Basic electrical Engineering and introduction of Basic Electrical Laboratory.

In, this regard, the VTU Registrar Dr. H. N. Jagannatha Reddy presented overall process adopting AICTE norms and drafting the course content for both Basic electrical subject and laboratory in morning session.

The HOD  
Mechanical Engineering Department  
ATMECE, Mysuru

Dear Sir,

**Subject: A Report on Two-day Workshop on Project Based Learning Using MATLAB & SIMULINK reg.**

Department of Thermal Power Engineering, VTU Centre for PG Studies, Mysuru in association with VTU, Belagavi, Aryabhatta Knowledge University, Patna, Bihar and Biju Patnaik University of Technology, Rourkela, Odisha had organised the above said Workshop on 27<sup>th</sup> and 28<sup>th</sup> April, 2019 at VTU Regional Centre, Mysuru. The Workshop was conducted under TEQIP 1.3.

We, Ravi Kumar S, Suresh Kumar S, Niranjana Kumar VS, Rakshith N and Ramanuja CM attended the workshop from our college.

The objective of the workshop is to give hands-on experience on MATLAB tools and Simulink software. Participants were the Faculty and Research Scholars from various Engineering colleges from Karnataka, Tamilnadu and Andhra Pradesh. A total of 58 participants out of 128 applied selected for the Workshop. The Resource persons were Mr. Pramod Kumar Naik, Senior Application Engineer and Mr. Manishankar, Application Engineer both Experts are from CoreEL Technologies Pvt. Ltd.

The Workshop was well organised and both the theory session and Hands-on sessions were useful. The Workshop covered the fundamentals of CoreEL and MATLAB and its products such as Mathworks.

The Brochure, Schedule, Registration fee paid receipt and copy of the Attendance Certificate is attached here with for your information and needful.

Yours Faithfully

Submitted:

Five faculty members had attended 02 days workshop on Mat lab at VTU Regional Centre & which respected principal had sanctioned permission.

As the formalities is completed the registration amount may be paid.

Report on two day Faculty Development Programme on  
**“CONCREATE –from Concept to Reality”**

Organized by

**VIDHYAVARDHAKA COLLEGE OF ENGINEERING**

Vidhyavardhaka College of Engineering, Mysore organized Faculty Development Programme on **“CONCREATE –from Concept to Reality”** on 15<sup>th</sup> and 16<sup>th</sup> of October-2018 for the benefit and up gradation of faculty knowledge level in the field of concrete technology.

The FDP is aimed to enrich the knowledge of faculty members in concrete technology. This FDP is an attempt to make teachers well-versed about the practical applications, along with the similarities and differences with that of theory that we teach in classrooms. Hence **CONCREATE –from Concept to Reality** covered the following topics as below

1. Understanding concepts, inputs for concrete mix proportion and necessary data required for mix design.
2. Calculation of Problem solving typical example.
3. Understanding Raw materials, observations, Material batching calculations for sampling tips on estimations.
4. Basics of admixture performance of admixture.
5. Process of RMC plant.
6. Special concrete practical executions and difficulty.
